the 7" smasher  
is coming to get you.

ever heard of "dogma djing"? no? but maybe it helps when i say that "mixing is for milksops" is its dictum? If you still haven't any clue, then you should definitely so and see DJ FETT! he brings you the raw essence of funk without resorting to silly turntabalistic tricks: half of the fun is the diggin' in the crates, especially in those at the run down jumble sale around the corner. DJ FETT is not afraid of getting his hands dirty - which is why he is able to concoct an enticing brew of crackling old soul 45s, strange beat, ecstatic jazz and relaxed reggae. FETT makes you wanna dance all night and hope that the weekend will last forever...
